TO: Minerals File

FROM: Tom Munson, Reclamation Hydrologist 

RE: Site Inspection, Northern Stone Supply Inc., Red Hills Project, S/001/028, Beaver County, Utah

Date of Inspection: October 18, 1995
Time of Inspection: 1:45 p.m.
Conditions: Sunny
Participants: Gina Pack, BLM; Tom Munson, DOGM

Purpose of Inspection: To inspect site while in the area.

This site was transferred to Gary Mullard of Northern Stone Supply, Inc from Eugene Hodges. A transfer letter was sent June 8, 1995.

There are two pit areas, pretty small in size, less than 1 acre. According to Gina Pack, of the BLM, they have removed some rock. The rock is used for aquarium stone. There is a road which travels through a riparian area that has tamarisk in it. If Northern Stone Supply decides to enlarge the operation, that road could be rerouted, or something could be done in terms of not disturbing that riparian area any further.

According to Gina, this claim was not Eugene Hodges claim, but belonged to some other people who have a placer claim in the area. The BLM or DOGM does not get involved in claim disputes, but the BLM believes that Northern Stone is not on Eugene Hodges claim.
